Price From: £4.00

A luxurious bath salt bottle with cork stopper containing a blend of Epsom and sea salts, botanicals and aromatherapy essential oils.

These are lovely bath salt bottles containing a blend of Epsom salts, Marine salts, botanical ingredients and aromatherapy grade essential oils to infuse the bath water.

These are presented in a tall elegant glass bottle, with a cork stopper and raffia decoration. We supply a free organza bag with each bottle. You simply add some salts to the organza bag, and then hang the bag over the hot tap as you are filling your bath. This helps the salts to dissolve and contains the botanicals so there's no mess afterwards.

If you like the idea of bathing with botanicals, then the salt can be added straight into the water.
