

Fizzing Butter Melts

[Click here to return to the store](#)

Price From: £1.50

A new range of luxurious fizzing butter melts, shaped like truffles and almost good enough to eat! These bathing beauties will gently fizz, releasing lots of moisturising cocoa and shea butters with decadent aromas from essential oils.

These handmade bathing beauties have been designed to gently fizz in a warm bath, releasing lots of moisturising fair trade cocoa and shea butters and a decadent aroma that comes from essential oils. You have to be a little careful with these since they will coat the bath water with butter, but this means that you'll emerge with silky soft skin and there's no need to apply a body lotion after bathing. Any colours in these bathing products are achieved by using natural ingredients.

These are really lovely natural bathing products, and will come in a variety of fragrances - some with petals or some without. They make fantastic gifts too, and can be presented in gorgeous ballotin boxes, hand wrapped with organza a satin ribbon for a unique and luxurious gift.

Reviews

Sorry but we don't have any reviews yet for this product.

These contain Bircarbonate of Soda, fairly traded Cocoa and Shea Butters, Citric acid and tapioca. We'll be adding lots of new fragrances during 2009, but our starting line up includes:

Rose Bud

This is such a cute mini-cupcake butter fizz that weighs around 30g. It's presented in a paper case and is decorated with a rosebud.

We've splurged on the rose aroma, using expensive essential oils like Rose, Geranium and Rosewood. Sweet and just lovely.

Sweet Dreams

This is a hand-rolled butter truffle, which has been carefully coated with cornflowers. As the name suggests this one is perfect to relax with, and contains Ylang Ylang, Lavender and Bergamot.

Gentle Calendula

This is another hand-rolled truffle, which has been carefully coated with calendula petals. This one is very soothing and contains Lavender, Roman and German Chamomiles making it perfect for sensitive skin types. This blend is

soothing and would be lovely to relax with at the end of a long day.
